## THE FIRST eO BUSINESS INCUBATOR GOES LIVE

Today, we launched the first eO Business Incubator at [America House Kyiv](#).

The incubator will help a new generation of Ukrainian entrepreneurs to set up a successful tech business through an intensive 4-month mentorship program. Our mission is to identify business ideas with greater commercial potential and help them grow at a global scale.

This is the first of two eO Business Incubators kick-offs, with the other one to take place in Kharkiv on April 5.

"With the launch of these new business incubators, we invest in our common future where Ukrainian small and medium-sized enterprises become reliable partners for international companies, including American firms and investors," said Susan K. Fritz, USAID Mission Director to Ukraine and Moldova.

"Our incubators will support Ukrainian tech enterprises in setting up businesses that are able to excel globally," said Charles Whitehead, Professor of Law at Cornell University in New York and co-founder of the eO Business Incubators.

The project eO Business Incubators is a part of USAID Competitive Economy Program *Підпорада USAID «Корисне підприємство економіки України»* that supports startups and small and medium-sized enterprises (SMEs) to become more competitive on domestic and international markets, facilitates a simpler and transparent business environment, and promotes efficient trade policy for SMEs to benefit from international trade.

Nor again is there anyone who loves or pursues or desires to obtain pain of itself, because it is pain, but because occasionally circumstances occur in which toil and pain can procure him some great pleasure. To take a trivial example, which of us ever undertakes laborious physical exercise, except to obtain some advantage from it? But who has any right to find fault with a man who chooses to enjoy a pleasure that has no annoying consequences, or one who avoids a pain that produces no resultant pleasure?"
